

Model FOD3512

Triple Laser Diode Module 1310/1490/1550 nm for OTDR

DESCRIPTION

The FOD3512 Pulsed Laser Module is designed specifically for FTTx Certification and Installation applications. Combining the three most common wavelengths for FTTx networks, the compact, cost effective packaging is ideal for hand held OTDR designs. Fabry-Perot lasers provide low coherence noise and low threshold currents for reliable performance and power budgets.

RoHS Compliant
